FOREIGN NEWS.

Saturday *arrived a* Mail *from* Holland; *and* Sunday *those from* France *and* Flanders.

VENICE, July 14. We have at laſt received Advice from *Rome*, that on the 12th of this Month, being the Feſtival of S. *Gio. Gualberti*, Cardinal *Lorenzo Corſini* was elected Pope, and that he has aſſumed the Name of *Clement* XII. He is deſcended from an ancient and very illuſtrious Family of *Florence*, in which City he was born the 7th of *April*, 1652. His firſt Office was Clerk of the Chamber, after which he was Archbiſhop of *Nicomedia*, and Treaſurer General of the *Apoſtolic* Treaſury. He was the ſecond Creation of Pope *Clement* XI. who made him a Cardinal the 17th of *May*, 1706, in a Promotion of 19 Cardinals, of whom two only, beſides his preſent Holineſs, remain alive, who are the Cardinals *Ruffo* and *Colonna*. In 1725 he became Biſhop of *Paleſtrina*, and ſhortly after he made his Option for the See of *Freſcati*. In 1726 he was made Preſect of the Signature of Juſtice, and he has always been eſteemed by the College of Cardinals, and much reſpected by the People of *Rome*. He has had in his Family two Cardinals, *viz.* his Uncle *Neroo Corſini*, who died in 1678, and Cardinal *Pietro Corſini* of *Florence*, Biſhop of *Porto*, who died in 1405, and many Archbiſhops and Biſhops, among whom was St. *Andrea Corſini*, Biſhop of *Fieſole*, who had been a Monk of the Order of the *Carmelites*: and dying in 1373, was Canonized by Pope *Urban* VIII. in 1629.——It is obſervable, that ſince the Year 1415, to this preſent Time, the Conclaves have never laſted above four Months, except in the Year 1670, when *Clement* X. was elected, and in 1691, at the Election of Pope *Innocent* XII. when the Vacancies of the Holy See were each Time about five Months a half. It held this Time four Months and ſix Days.

Warſaw, July 13. *Don Manoel*, Prince of *Portugal*, accompanied by a Knight of *Malta*, and ſome Domeſtics, arrived here the 9th *Inſt.* from *Padua*, and proceeded the ſame Day for *Moſco*. We have received Advice, that Duke *Ferdinand* of *Courland* is intirely recovered of his late Illneſs; and it is reported, that this Prince, who is 75 Years old, is about to marry the young Counteſs of *Promnitz*. Several Petty *Dyets* of this Kingdom are broke up unſucceſsfully.

Peterſburg, July 4. By our lateſt Advices from *Moſco* we learn, that, on the 24th of laſt Month, arrived there a Courier from M. *Nieploeff*, the *Ruſſian* Miniſter at the *Porte*, whoſe Diſpatches import; that Bodies of *Ottoman* Troops were daily advancing towards the *Turkiſh* Conqueſts in *Perſia*, on certain Intelligence, that the Forces of the victorious *Shah Thamash* were ravaging thoſe Provinces at Diſcretion, and ſeemed diſpoſed to attack *Tauris*, having already aſſembled an Army 70,000 ſtrong.—Her *Czarian* Majeſty is ſtill taking the Diverſions of the Seaſon at *Iſmailow*. Lately 20 Pipes of *Shiras* Wine have been brought to *Derbent*, by Way of *Aſtracan*. Immediately on the breaking up of a Grand Council of War, held a few Days ſince at Court, at which Council Prince *Geliczin* preſided, Orders were diſpatched to the General Officers of all the *Ruſſian* Forces quartered in the Provinces conquered from *Sweden*, to be ready to march at the ſhorteſt Warning; and thoſe in *Ukrania* are actually on their March, apparently to replace them; but we cannot, with any Certainty, determine on what has occaſioned theſe ſudden Movements; tho' many ſcruple not to ſay, that none is better acquainted with all this than Duke *Charles Leopold* of *Mecklenburg*.——Count *Munich*, our Governor, has alſo expreſs Orders from the *Czarina*, to forbid the Officers in *Livonia*, &c. to abſent themſelves from their reſpective Poſts, and to hold their Men in perpetual Readineſs, *&c.* Princeſs *Elizabeth* is always near the Perſon of her *Czarian* Majeſty, ſo that ſhe ſeems to have quite laid aſide her Deſign of retiring to a Convent: But we are aſſured ſpeedily to hear the contrary of Princeſs *Dolgorucky*, who was betrothed to the late Czar *Peter* II. who is ſeemingly reſolved to ſhut herſelf up, for the Remainder of her Days, in a Convent lately built near *Moſco*. All the Effects of the unfortunate Prince *Dolgorucky*, that came to Light, having been ſold, nothing remains but his fine Palace, which is no wiſe inferior to that of Prince *Menzikoff*; but her *Czarian* Majeſty deſigns it as a Preſent to ſome Favourite Miniſter.

Stockholm, July 11. Eight Days ſince, two Frigates, well equipped, ſailed hence, with Orders to paſs the *Sound* and proceed to the *North* Sea; but we know not on what Deſign. Two young Elks are brought hither, from *Swediſh-Lapland*, which his Majeſty deſigns for the King of *Great Britain* and Prince *Naſſau*, Stadtholder of *Frieſland* and *Groningben*.

Compiegne, July 27. The Courier who brought a Confirmation of the Election of Pope *Clement* XII. (lately Card. *Lorenzo Corſini*) aſſures us, that the Election was not made in the *Ordinary* Way, either of *Scrutiny* or *Acceſs*, but by the *Extraordinary*, or what they call *Inſpiration*. This Method by *Inſpiration* is, when their Eminencies, grown tired of a long Confinement, reſolve to put an End to the Conclave, and quit their Cells at once, crying out; *Such a one is* Pope: And thus his preſent Holineſs was unanimouſly choſen. The Cardinals abandoned their Cells the very Night of the Election, and next Day the new Pontiff went, in the uſual Formality, to St. *Peter*'s Church, where ſitting on the high Altar, he received the Adoration of the Cardinals. The City of *Rome* was glorioufly illuminated ſeveral Nights ſucceſſively; but in a more remarkable Manner by the *Franciſcans*, of whoſe Order this Pope had been Protector. On the 15th, his Holineſs diſpatched no fewer than 19 Couriers, to notify his Election. His Coronation was fixed for the 16th *Inſt.* and then he will ſet out for *Monte-Cavallo*, there to paſs the Remainder of the Summer. Marquis *Corſini*, his Nephew, now Secretary of the *Memorials*, is going into Religious Orders, and will, doubtleſs, ſoon be a Cardinal.

Legborn, July 15. Our Governor has Orders, from the Prime Miniſter at *Florence*, to acquaint all the Merchants and others, who are under any Uneaſineſs on Account of the preſent Situation of Public Affairs, that the Grand Duke is determined to take Care not only of their Perſons but Effects, to the utmoſt of his Power: And it is not doubted but the new Pope, who is a Native of *Florence*, will be able to bring about an Accommodation, and prevent the Miſchiefs with which we have been threatened——However, the Merchants (and not without Reaſon) ſeem jealous, that if the *Spaniards* ſhould attempt to land here, we ſhall ſoon have an Inundation of *German* Troops, to defend this Town and Harbour. The Republic of *Genoa* has already paid 10,000 Piſtoles, and that of *Lucca* a conſiderable Sum, to be exempted from quartering *Imperial* Forces; but that one Payment will, we doubt, ſcarce ſuffice.

Cazalla, July 7. *Sunday* laſt, Mr. *Keene*, the *Engliſh* Miniſter at this Court, received his *Britannic* Majeſty's *Ratification* of the *Treaty* of *Seville*, to be exchanged againſt thoſe of *France* and *Spain*: And, at the ſame Time, that Miniſter received the *Inſtrument*, appointing him Firſt Commiſſary, on the Part of *Great-Britain*, for ſettling the Claims of the *Engliſh* Merchants, purſuant to the ſaid *Treaty*: But we do not hear when Commiſſaries will be named for that Purpoſe on the Part of this Crown. We are told, that Mr. *Keene* has lately made frequent Complaints againſt the new Exactions and Inſults practiſed on the Ships of his Nation, both in *Europe* and in *America*,——Five Leagues hence, at a Place called *Quadalcaval*, are ſome Silver Mines, which certain *Engliſh* Artiſts have undertaken to drain, and to ſtop the Springs. They have 50 Labourers at work, at a Piece of Eight *per* Day. They are viſited by many of the Curious; but their *Catholic* Majeſties have not yet done them that Honour; and the Succeſs of their Enterprize ſeems ſomewhat precarious. The *French* Embaſſador, Marquis *Brancas*, who has been dangerouſly ill, was much better when the Poſt departed.

Hague, Aug. 1. Our Letters from *Berlin* give us a melancholy Account of the intire Deſtruction of the Corn-Fields and Meadows for ſome Miles together in the *New Marquiſate* in *Brandenburg* and *Saxon Vandalia*, by Myriads of Locuſts. What they tell us of their paſſing the *Oder* by ſwimming, is almoſt incredible; but which Way ſoever they came, they got within a few Leagues of the King's Hunting Houſe at *Wuſterhauſen*. They make terrible Havock on their March (which they ſay is in four or five Columns) leaving neither Ear of Corn, nor Blade of Graſs. Thus the Farmers are in the utmoſt Deſolation, having, in a Night's Time, loſt the Proſpect of one of the moſt hopeful Harveſts they ever had in their Lives. But neither is this all: Theſe adventurous Inſects attack the very Houſes, and intrude into every Part; and tho' the aſtoniſhed People deſtroy them by Millions, and dig Holes to bury them, they cannot be miſſed in the Heaps that ſwarm there. We hope the late heavy Rains have waſhed away theſe formidable Gueſts.——By our laſt Letters from *Paris*, we hear, that the Cardinal-Miniſter has ſent another Expreſs to *Spain* (it ſeems) with a Method propoſed by the *Emperor* for preventing a War. His Eminence and old Count *Coningsek* are never aſunder; ſo that we do not abſolutely deſpair of their ſtriking out an Expedient at laſt, to hinder the Effuſion of Blood, and all the other Miſeries of War.

By a Ship which left *Davis*'s Streights the 12th *Inſt.* we learn, that there had been 206 Whales caught by all the Ships: And from *Bremen*, that three Ships were arrived there from *Greenland*, with an Account, that 19 Ships of that *State* had caught three Whales, 20 *Hamburghers* one; the *Engliſh* ſeven; and the *Hollanders* twelve or fourteen.

Tueſday *arrived a* Mail *from* Holland.

Reggio, July 15. The Hereditary Princeſs of *Modena* was here ſafely delivered of a Son, *Yeſterday*.

Milan, July 15. The *Imperial* Troops are poſted in ſuch Manner, that a ſtrong Army can be drawn together in a little Time, or ſeparate Bodies to act as Neceſſity ſhall require. Meſſ. *Dietti* and *Compaigne* have undertaken to furniſh 3000 Mules, to carry Proviſions and Ammunitions of War, where there ſhall be Occaſion. A Magazine is forming at *Pianera*, on the Frontiers of *Tuſcany*, for the *Imperial* Troops which are to enter that Dutchy in caſe of Need, and another in *Romania*, for the Troops in the Kingdom of *Naples*

Genoa, July 15. The *Imperialiſts* have fitted out here ſeveral ſmall Veſſels, to cruiſe on the Coaſt of *Spain*, and obſerve the Motions of the *Spaniſh* Fleet.

Legborn, July 15. Two Days paſt, arrived here an *Engliſh* Ship, which ſailed from *Barcelona* the 5th *Inſt.* and the Maſter reports, that on his Departure he left there a large Fleet of Men of War and Tranſports, and a numerous Army incamped in the Neighbourhood: That the Bridge for imbarking the Cannon and Cavalry was almoſt finiſhed; and a Report runs, that a Deſcent would be attempted on *Sicily*.

Vienna, July 22. It is reported here, that General Count *Daun* is to return ſoon from *Milan*, to communicate to his *Imperial* Majeſty ſome Affairs of Importance. We learn from *Hungary*, that the ſmall Iſland of *Schut* is intirely laid under Water, by the over-flowing of the *Danube*; ſo that all the Cattle thereon periſhed. The nine Regiments of Cavalry, formerly mentioned, have received Orders to be ready to march on the firſt Command; and like Orders are ſent for the Troops of the *Empire*, who are to enter into his *Imperial* Majeſty's Service. We reckon, that 40,000 Men have been already drawn out of *Hungary*, including the ſaid nine Regiments of Cavalry; and there is a Talk of replacing them with new Levies; the Court having reſolved to maintain conſtantly a conſiderable Army in *Italy*, even tho' there ſhould be no Rupture, with which People here ſtill flatter themſelves.

Hanover, July 21. Lately, in our Neighbourhood, has been diſcovered a certain Bituminous Matter like Pitch, which, as ſome inſinuate, has ſeveral marvellous Vertues, particularly againſt the Gout, by healing radically the Parts offended, if therewith annointed. Our Engineers and Labourers are very hard at work, adding ſome new Fortifications to the Fortreſs of *Gottengen*; and a Plan is propoſed for doing the like to that of *Hamelin*, and for making a new Sluice on the *Weſer*, which runs along the Walls of that Place, and rendering it more navigable. They have begun to cut Rye in our Neighbourhood, and the Harveſt here, and in moſt or all Parts of *Germany*, is like to be ſo abundant, that the Price of Corn is already much lowered, and it is likely to be ſtill cheaper.

HOME NEWS.

FRIDAY, *July* 24. The Half-Pay to Sea-Officers, from *January* 1, 1729, to *June* 30, 1730, will begin Payment, at the Treaſurer of the Navy's Office in *Broad*-Street, at Nine in the Morn. of the following Days: *Monday*, the 10th of *Auguſt*, for Captains: *Tueſday*, the 11th, for Lieutenants: *Thurſday*, the 13th, for Maſters and Surgeons.

From *Croydon* we learn, that a young Laſs, taking a Trip to *Epſom* Horſe-Races with a certain Sweetheart, at her Return, her careful Mother ſo reſented the Damſel's imprudent Conduct, in this Elopement, that, thro' Exceſs of Paſſion, ſhe attempted to hang herſelf; but was timely prevented. The Daughter, ſtruck with Remorſe for having occaſioned ſuch Confuſions, ran towards the Well, with a Reſolution of throwing herſelf in head-long; but being overtaken and brought to her Mother, and the Neighbours aſſembled, a Reconciliation enſued, on the Daughter's ſolemn Proteſtations of Amendment, by a more regular Conduct for the future.

The old Buildings, behind the late Mrs. *Arabella Godfrey*'s Apartment in *Whitehall*, are pulling down, on which Ground the Ld. Bp. of *London* deſigns to build ſome Additions to thoſe Lodgings, now his ſaid Lordſhip's.

At the late *Cambridge* Commencement, among the great Reſort of Perſons of Rank and Figure, our Town Sharpers

were not idle, five Gold Watches, divers Snuff-Boxes and other Things of Value having diſappeared.

At *Ockham* Aſſizes, held for the County of *Rutland*, a Clergyman was tried for a remarkable Proof of his Vigour, in committing a Rape on the Body of a venerable Matron of 70. But the Ld. Chief Baron, ſuſpecting the Reality of this Fact, examined her very cloſely, and having found her in ſeveral Falſities, the Rev. Gentleman was not only acquitted, but had a Copy of his Indictment granted him; the whole appearing no other than a ſcandalous and malicious Proſecution.

Yeſterday, by Order of the Board of Works, they began to pull down the Boards, *&c.* round the Statue of K. *James* II. in the *Privy*-Garden, *Whitehall*, in order to beautify it with fine Paliſades, *&c.*

SATURDAY, *July* 25. *Yeſterday*, at the *Cofferer*'s Office, *Palace*-Yard, were paid the Wages due to his Majeſty's Houſhold and Livery Servants.

It is ſaid, that the Troops lately put on board the Tranſports, at *Spithead*, are deſigned to relieve the Garriſons of *Gibraltar* and *Port-Mahon*: Between 30 and 40 of the Soldiers Wives, who would have accompanied their Husbands, as Volunteers, on the intended Expedition to *Italy*, proving mutinous and turbulent, they were turned aſhore.

A certain young Baronet, of a good Eſtate, having lately married a young Perſon of ſmall Fortune, living near *Clare*-Market. and died of the Small-Pox about ſix Weeks after the Marriage, the next of Kin to the Deceaſed have petitioned the Court of *Chancery* for a Commiſſion of *Inquiry*, in order to be ſatisfied, as to her reported Pregnancy; which, we hear, was not obtained: But thus far it was granted; that the Petitioners may, if they pleaſe, appoint two Women to attend her, to prevent any unfair Practices.

At the Floriſts Feaſt, held on the 21ſt *Inſt.* at the *Crown* in *Kenſington*, was ſhewn a very extraordinary Curioſity, *viz.* an Aloe Plant in Bloſſom, tho' but of one Year's ſtanding in a Half-penny Earthen Pot. It was produced by Mr. *Spencer*, Servant to Mr. *Funbury*, a famous Gardiner over againſt the Park-Gate at *Kenſington*, who had the Credit of ſhewing the fineſt Flowers there before a numerous Appearance of Floriſts and Vertuoſi. This is the more remarkable, becauſe many affirm, that the Aloe bloſſoms but once in about 100 Years.

Lady *Bolingbroke*, is to come over hither, immediately on her Recovery from her Ladyſhip's preſent Indiſpoſition.

They write from *Oxford*, that a certain Spark, of that City, who before the late Act of Parliament practiſed there as an Attorney, and had rendered himſelf ſo terrible to all his Neighbours, *&c.* that he was ſcarce known by any other Name than that of The *Devil*, being ſince rendered incapable of *living* by the *Law*, ſet up for a Collector on the High Roads; in which his new Vocation he was taken, the 20th *Inſt.* in the Even. and conducted to the Caſtle. This was ſuch agreeable Tidings to all his Acquaintance, that the Bells were all ſet a ringing; and abundance are in great Hopes that, as this worthy Gentleman could no longer *live* by the *Law*, he may at leaſt have the Honour of *dying* by *it*.

MONDAY, *July* 27. *Saturday* laſt, paſſed the Great Seal an *Eleemoſinary*, granted to the Miniſter, Churchwardens, and Inhabitants of the Pariſh of *Miſley*, al. *Miſtley*, in the County of *Eſſex*, for a Collection to be made throughout *England*, *Wales*, and the Town of *Berwick* upon *Tweed*, for building the Pariſh-Church and Steeple, the Charge of which, as computed, will be 1742l. Collections to be made from Houſe to Houſe in the Counties of *Eſſex* and *Suffolk* only.——As did, alſo, the ſame Day, a Grant of ſeveral hundred Pounds in Mortmain, given to St. *John Baptiſt*'s, at *Oxford*.

Early the ſame Morn. a Male Child, about ſix Weeks old, neatly dreſſed, was found in a Corner of *Emerſon*'s Field, near *Kenſington*-Square. This Infant has neither Palate, Upper Lip, nor Upper Gum, but a Piece of Fleſh joining to the Noſe, exactly like a Hog's Snout, which comes down to the Lower Lip, almoſt covering the Mouth: In all other Reſpects the Child is well-featured; and was, very probably, thus abandoned by its Parents merely on Account of this ſurpriſing Defect. It is now under the Care of the Pariſh Nurſe, in *Church*-Lane, *Kenſington*, where it is continually viſited by Numbers of People.

A Perſon well known by a Title to which he has not the leaſt Title, and much frequents *Tunbridge*-Wells, was indicted at *Maidſtone* Aſſizes, for attempting a Rape on a Child under eight Years of Age: But ſhe being ſo young, her Evidence was not admitted; and ſo the Gallant was diſcharged.—But it is dubious, whether Matters will be made ſo eaſy with the vigorous Blind Brazier of *Kenardington*, aged 60, who is to take his Trial at the ſame Aſſizes, for actually and forcibly deflowering a poor Girl, under 12: Or with the Ginger-Bread Man, now in *Southwark* Jail, for a like Feat on the Body of a Child, ſcarce ſeven: Nor do we, as yet, hear, what is to be done with a certain Chap, lately in *Covent*-Garden Round-Houſe, on Suſpicion of having raviſhed a Woman, who is none of the youngeſt.

The fine *Orrery*, lately purchaſed of Mr. *Glynn*, is now carried to *Windſor*, where it is lectured on, in the Town-Hall, by Mr. *Geo. Gordon*.

We are aſſured from very good Authority, that the Expreſs ſent to the Court of *Spain*, on the 23d *Inſt.* was to demand the ultimate Reſolution of their *Catholic* Majeſties, concerning the *South-Sea* Company's Ship *P. William*, now ready to ſail for *Spaniſh* Weſt-*India*: And at the Return of this Expreſs, the Company expect the Royal *Cedula*'s.

TUESDAY, *July* 28. Orders are ſent over to *Dublin*, to ſhip off the Regiments from *Cork*, which are deſigned for the *Italian* Expedition.

Geo. Macatire, mentioned in our former, as being one of the infamous Raviſhers and barbarous Abuſers of Mr. *Eleanor O Naile*, had his Trial at the laſt Quarter-Seſſions at *Dublin*: And being found Guilty, after a full Hearing of the Proſecutor, who ſwore that he forced her twice, and tho' ſhe was tied, threatened to rip her open if ſhe made a Noiſe, was ſentenced to receive immediate Execution; but on Application, got a few Hours, which he ſpent in getting him a Cap and Shirting, for he was ſo confounded as not to be able to Pray; however, he confeſſed his Guilt, as to the Fact for which he died, and alſo his being concerned in ſeveral Street-Robberies, and earneſtly begged for the Prayers of the People. After he came to the Gallows, he accuſed of Felonies, ſeveral Perſons now in *Newgate* there and ſeemed much afflicted for his paſt Iniquities.

The *South-Sea* Company's Ships *Vigilance*, and *Reſtoration*, arrived in the River from *Greenland*, and have each of them brought three Whales. By them we have an Account of two of their Ships having caught each one Whale, and two more had one Whale between them; the Succeſs of nine Ships was unknown. Tho' the *Greenland* Fiſhery in general has this Seaſon been exceeding bad, yet we have the Satisfaction to find, that our Ships have faired much better than thoſe of any other Nation.

It is rumoured, that Count *Degenfelt*, who, with his Lady, arrived lately from *Holland*, brings full Powers, from his *Pruſſian* Majeſty, to negociate the Marriages, ſo long talked of, between the two Crowns.

The fine Houſe in *Greenwich* Park, now poſſeſſed by Sir *John Jennings*, Gov. of *Greenwich* Hoſpital, and Ranger of the Park there, is new flooring and beautifying, for the Reception, as we hear, of his R. H. the P. of *Wales*; and Sir *John Jennings* is to have an Apartment in that Part of the College which is new building.

We hear, there is Brine lately found for the making of Salt, within two Miles of the City of *Worceſter*; and the Ground it is diſcovered in being not above 70 Yards from the River *Severn*, it is believed it will be the greateſt and moſt profitable Work in the Kingdom; it ſaving the Land Carriage both of Sal- and Coals.

WEDNESDAY, *July* 29. *Yeſterday* came Letters from *Havana* (by Way of *Virginia*, where they were carried by the *Greyhound* Man of War) dated *May* 30. N. S. adviſing the ſafe Arrival of the *Flota* at that Place, from *La Vera Cruz*, and that they intended to ſail thence the 7th of *June* for *Cadiz*, from whence we may hourly expect to hear the agreeable News of their Arrival.

We hear, that the laſt Expreſs from the Court of *Spain* brought nothing to forward the Diſpatch of the *South-Sea* Company's Ship *Prince William*, which ſtill continues in *Long Reach*: The *Spaniards* are very complaiſant, and promiſe fair: But it is feared, that at beſt they will delay her Departure ſo long, as to prevent her arriving in *New-Spain* before the Galleons have ſold their Cargoes, and conſequently very much injure the Company in the Sale of their Goods; ſo that there is, at preſent, but little Proſpect of their reaping the Benefit which from the Peace might have been now expected, as a Reward for their long Sufferings by the *Spaniards*.

The five Robbers lately apprehended at *Datchet* and *Windſor*, have confeſſed to a Perſon of Quality, who came to ſee them in the Caſtle-Priſon, that they deſigned to have robbed their Majeſties when they went out for the Morning-Air, without their Guards.——A Gentlewoman whom they had robbed one Night in *London*, of her Pocket, in which were ſeveral Rings and ſome Money, went to *Windſor*, laſt *Sunday* to ſee them, when they made an ample Confeſſion of the Robbery, and told her how they had diſpoſed of her Things.—They are now all in *Reading* Jail.

Information having been given to Sir *John Gonſon*, of a Gang of Pickpocket Boys, to the Number of 30, who nightly infeſt the *Piazza*'s in *Covent-Garden*, the *Strand*, *Temple-Bar*, &c. he iſſued out his Warrant for the Searching certain Night-Houſes and Cellars, where ſuch are harboured and entertained; and of this Gang being apprehended by the Conſtables, eight of the moſt notorious were, laſt *Tueſday*, committed to *Tothill*-Fields Bridewell, to Hard Labour: The oldeſt of theſe hopeful Youths is ſcarce 13; and moſt of them, while conducting to their new Lodgings, all who heard their Expreſſions, and were not of their own vile Stamp, were ſeized with Horror and Aſtoniſhment at the execrable Oaths, Curſes, *&c.* thoſe impious Wretches vomited, to the Nuſance of all good People.—This worthy Magiſtrate, at the Head of about a Dozen other *Weſtminſter* Juſtices, are determined to meet conſtantly twice a Week, in order to ſuppreſs, and, if poſſible, to root out all diſorderly and infamous Houſes, within the ſaid City and Liberty: And this has occaſioned ſo great a Conſternation among thoſe Cattle, that ſeveral of the moſt noted Matrons, with their Nymphs, have packed up their *Awls* and moved off the Premiſſes, four or five of them by Night, to the no ſmall Mortification of their Landlords, who are upon the *High Hunt* after them for Houſe-Rent, and the like ——Tho' more than 40 Bawds and Strumpets, within about a Fortnight paſt, have been committed to *Tothill*-Bridewell (excluſive of thoſe in the *Gatehouſe*, &c.) it does not appear, that the Conſtables, or their Myrmidons, had the Trouble in getting any of them ſafe thither, as had lately ſome of their Fraternity at *Dublin*, in carrying off the celebrated Mother *Lawler*: The Grand-Jury, Church-Wardens, *&c.* of that City, following the Laudable Example of Sir *John Gonſon* and his Aſſiſtants, being determined to extirpate Brothels, ſent a Poſſe to take away, to Bridewell, this good Gentlewoman, from her Manſion-Houſe on *Blind-Quay*: But ſhe proteſting herſelf utterly unable to walk ſo far, or even to quit her Bed, they ſent for a Cart, wherein, faſt tied on her own Bed, ſhe was thither conducted, moſt triumphantly attended.

THURSDAY, *July* 30. By Letters from *Gibraltar*, dated the 15th of laſt Month, we are informed, that the People there think it a great Misfortune that they have no Communication, by Land or Sea, with *Spain*; the *Spaniards* keeping them blocked up, within three Quarters of a Mile of their Works, in the ſame Place where they were a Year ago; and ſo ſtrict is the General who commands their Line, that he will not ſuffer a Man to paſs either in or out; and how long this will laſt they cannot tell; they only wiſh for Leave to remove them; they would then ſoon inlarge their Territories.

At the Floriſts annual Feaſt, held a few Days paſt at the *Plow* in *Clapham*, where was the moſt numerous Appearance of that Fraternity that has been known for many Years, the Prize (a Silver Cup of good Value) was carried by Mr. *Heron* of *Camberwell*'s Gardiner, who produced a Carnation (called a *Princeſs Amelia*) which for Size and Variety of moſt beautiful Colours was unanimouſly allowed to be ſo extraordinary a Rarity, that no Flower, of the Kind, any way comparable to it, was ever ſeen in theſe Realms.

From *Dublin* they write, that a very noted *Jeweſs* has there lately turned *Chriſtian*; at which her Relations and others, of her former *Perſuaſion*, are ſo highly inſenſed, that they have vowed her Death, when ever they can meet with a favourable Opportunity.

The *Greyhound*, Sir *Yelverton Peyton* Commander, from *Jamaica*, is arrived at her Station in *Virginia*. She touched at *Havana*, and has ſent Letters from thence, dated the 27th of *May*, N. S. which mention, that the Flotila ſailed from *La Vera Cruz*, *May* 3. N. S. conſiſting of three Men of War (of 50 Guns each, under the Command of Marquis *Mari*, as Admiral, and *Don Andres Regio*, Vice-Admiral) and nine Merchant-Ships, having on board 14 and 15 Millions of Pieces of Eight, with a Quantity of Cochineal; and that the ſaid three Ships of War and ſeven Merchant-Ships arrived at *Havana* the 24th of *May*; the other two not being arrived when the Letters came away; and it was expected that the ſaid Flotilla would ſail from *Havana* for Old-*Spain* in about 20 Days: Alſo that the *Bridgen*, Capt. *Webſter*, would be ſoon diſpatched there for *England*.

Yeſterday about Noon, Col. *Lewen*, who had the Care of his R. H. the P. of *Wales*, and came over with him to *England*, arrived here from *Hanover*, and proceeded immediately for *Windſor*. We hear he will have the Care of his Royal Highneſs the Duke.

The ſame Day, the Court of Directors of the *Eaſt-India* Company took into Conſideration the Anſwers of their Supercargoes to the Information exhibited againſt them by Mr. *Abr. Weſſall*, which they apprehending to be inſufficient, and very far from ſatisfactory, determined to lay the whole Affair before a General Court, which will be held on *Wedneſday* next for that Purpoſe.

Mr. *Beaumont* of New-*Windſor* having, with much Difficulty and Expence, brought up the River *Thames* a Yatcht, and placed it over-againſt the Caſtle, on board of which he retailed all Sorts of Liquors, and great Numbers of People uſed to reſort to ſee it; but the Provoſt and Fellows of *Eton* College, being apprehenſive leſt the Youths under

their Care might frequent the Veſſel, and corrupt their Morals, have cauſed Mr. *Beaumont*'s Licenſe to be taken away.

We hear, that a noble Settlement is to be made on *Savanna* River in South-*Carolina*, and that Gentlemen of great Honour and Worth are at the Head of that Affair.

From *Leominſter* in *Herefordſhire* we have Advice, that the Rev. Dr. *Rich. Harris*, Miniſter of that Pariſh, and *Breadwardine* in the ſame County, has for ſome Time declined preaching, on account of his great Age and Infirmities; and has reſigned the former Living, which was in his own Gift, to his Son. It is remarkable, that he has held thoſe Livings upwards of 40 Years, and continued preaching till he entered his 84th Year.

THE GOLDEN RULE of DIVINE PHILOSOPHY: With the Discovery of many Mistakes in the Religions Extant. Written in Two PARTS. PART I. Concerning Divine Philosophy, Proposing and Answering many curious and critical Questions of Scripture, very delightful to the curious Reader, and very helpful in many religious Disputes; with the Discovery of the two last Witnesses; who they are, and how by their Agreement all religious Questions may be safely and surely answered. PART II. Concerning the Discovery of many Mistakes upheld in the Religions extant; with an Account how they may be all helped with Safety and Satisfaction, never before so briefly discovered to the World. By ROBERT KIRKPATRICK, Professor of Physick and Surgery. Printed for the Author, and Sold only by him, at his Shop in *Corn-Cross*, near *Peter-street*. 1730.

At the Desire of Mr. DANIEL HARROD, *this Publick Notice is given,*

THAT five large *Stones*, with many others of lesser Sizes, and great Quantities of Gravel, were voided by him, by only drinking the WATERS of PANCRAS WELLS a few Days: Of whom more Satisfaction may be had, at his House in Hedge-Row in Islington; or at Mr. RICHARD BRISTOW's, Goldsmith near Bride Lane in Fleetstreet; where these Stones may be seen: And the Pancras Mineral WATERS, *as also* Bristol *and* Bath WATERS. Are sold, and deliver'd to any Part of London, the two former at 6 *s.* and the latter at 7 *s.* 6 *d. per* Dozen, Bottles and all.

Besides the Virtues of the PANCRAS WATERS, in curing the Stone and Gravel, the Strangury, Suppression of Urine, and all Obstructions and Ulcerations of the Kidneys, Ureters or Bladder, they are equally successful in the King's Evil, the Scurvy, Leprosy, Surfeits, Fiery Itchings, Blains, Pustules or Breakings out, and Inflamations of any Kind in any Part of the Body; they wonderfully purify and sweeten the Blood and Juices, cleanse and heal internal and external Ulcers, tho' of the most corrosive Nature, and effectually cure Weakness of either Sex, from what Cause soever proceeding, in a few Days. Several other Distempers they are greatly serviceable in, which, and the manner of taking them, is added to Mr. HARROD's more particular Account of his Case; and may be had at Mr. *Bristow's*, where these Waters are only sold in London, to be depended upon as genuine.

N.B. *The* Pancras Waters *Answer all the Ends of the Waters of* Holt *in Wiltshire with this Advantage, that a much less Quantity of them is necessary to be taken in the Cure of any Distemper; they are very grateful to the Taste, agree well with, and exceedingly strengthen the* Stomach, *will keep many Years without loosing their Virtue, and may be taken in any Season.* N.B. Mr. *David Thomas*, who keeps the Bowling Greens in Cupid's Gardens, Lambeth, desires it may be publish'd, that by only once drinking the Waters of PANCRAS WELLS, he voided a great deal of Gravel, and a large Worm; he had been afflicted with violent Fits of the Gravel, and gnawing Pains at his Stomach, for some Years before, but has continued perfectly free from both Complaints ever since the 8th of February last, which was the first time he drank these Waters. He is now in the 65th Year of his Age.
